

Rose Rhapsody

These delightful doily designs are based on a theme of roses, one being worked entirely in crochet and the other forming a garland of flowers around a centre of matching fabric.

The delicate beauty of the rose is further enhanced by the pretty lace-like pattern of the surrounding crochet.

To Make Up

Turn back a small hem on fabric or lace with bias binding. Place crochet to fabric overlapping last 2 rows of heading and sew neatly in position.

Laundering

Mercer-Crochet colours are fast dyed and are highly resistant to even the most severe washing treatments but these colours may be adversely

affected when washed in certain commercial washing preparations which contain high levels of fluorescent brightening (whitening) agents. To maintain the true tones of Mercer-Crochet colours it is recommended that pure soap flakes type washing agents be used as these generally contain only low concentrations of fluorescent brightening (whitening) agents.

Items should not be washed when work is still in progress. The assembled article should be washed on completion.

Make a warm lather of pure soap flakes and wash in the usual way, either by hand or washing machine. If desired, the article may be spin-dried until it is damp, or left until it is half dry. Place a piece of paper, either plain white or squared, on top of a clean, flat board. Following the correct measurements, draw the shape of the finished article on to the paper, using ruler and set square for squares and rectangles and a pair of compasses for circles. Using rustless pins, pin the work out to the pencilled shape, taking care not to strain the article. Pin out the general shape first, then finish by pinning each picot, loop or space into position. Special points to note carefully when pinning out are:-

- When pinning loops, make sure the pin is in the centre of each loop to form balanced lines.
- When pinning scallops, make all the scallops the same size and regularly curved.
- Pull out all picots.
- Where there are flowers, pull out each petal in position.
- When pinning filet crochet, make sure that the spaces and blocks are square and that all edges are even and straight.

If the work requires to be slightly stiffened, use a solution of starch - 1 dessertspoonful to 1 litre (1 pint) hot water, and dab lightly over the article. Raise the article up off the paper, to prevent it sticking as it dries. When dry, remove the pins and press the article lightly with a hot iron.
